

# COBALT-Online X1 Cloud-based Access Control

## Why Electronic Access Control ?

### Do you ask yourself these questions?

Where are all my keys?

Who is in the building?

When did they enter?

Where did they go?

How can I quickly disable someone's access?

*You can easily answer these questions with Electronic Access Control.*

## Why COBALT-Online ?

### When selecting your Access Control System, you should consider:

Is the system easy to use?

Is the system cost effective?

Is the system flexible to meet my changing business needs?

Does it allow me to leverage the investment I've made in my IT network?

*You can satisfy all these needs with the COBALT-Online Access Control Solution.*

# COBALT-Online X1 Cloud-based Access Control

## Advantages

### Hassle Free

The hosted **COBALT-Online** Access Control system gives you the benefits of a commercial-grade access control system, but without the business interruptions, the costs, the need for training, or the maintenance requirements that traditional access control systems impose.

### Remote Support

System experts are just a phone call away. You don't have to worry that your one employee, who is the "access system expert", is going on vacation for a week.

### Easily fits into your facilities

The **COBALT-Online** system's technology does away with the traditional control-panel entirely. It piggybacks on the building existing computer network wiring. It requires no hardwiring of building power and involves the installation of only of a single, standard computer network cable to each door.

### Tax Deductible

The monthly fee for your system's operation can be treated as a business expense, which reduces your tax liability and increases the system's ROI.

## Powerful Features

### Manage your business

- Grant and revoke access to your facilities
- Easily add a new employee
- Easily disable lost card
- See what has happened:
  - See who came in & when they arrived.
  - Review what time the doors unlock at the start of the day.

### Automate

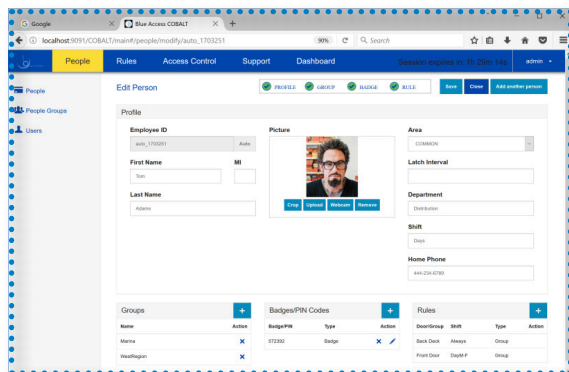

- Doors can auto-unlock, on the schedule of your choice
- Supports automatically relocking doors at the end of your business day.

### Convenience

- Use the COBALT-Online WebApp to control and monitor your office from a PC or smart phone.
- Remotely open the doors for the weekend employee who forgot their card.

### Powerful

- Supports 64000 card holders
- Unlimited number of doors
- Door continues to function, even if the Internet goes down.
